Dheeraj Kanojiya

Mumbai, India | +91 8108212831 | dheerajkanojiya78@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Senior Software Engineer with **9+ years** of experience developing enterprise backend applications using **Java**, **Spring Boot**, and **microservices**. Experienced in fintech and payments, banking partner integrations, transaction lifecycle processing, asynchronous messaging, Java modernization, and production support. Skilled in building **REST APIs** and collaborating across teams to deliver reliable services.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | NIUM India Pvt. Ltd.

Sep 2020 – Oct 2026 | Mumbai, India

- Contributed to payment integration and service design, including API communication, orchestration, transaction flows, and error handling.
- Designed transaction sub-status flows for payment state visibility across client-facing and downstream services, supporting tracking and reconciliation.
- Developed REST APIs and integrated external payment partners with different authentication and communication requirements.
- Implemented asynchronous event propagation using **RabbitMQ** and supported **AWS SQS** messaging workflows.
- Contributed to migration from **Java 8** to **Java 21** and developed a reusable shared library to reduce duplicated functionality.
- Developed **Cuscal** integrations for AUD pay-ins, payouts, and mandate creation; worked with **CRB** and **Monoova** integrations.
- Handled partner API failures, unexpected responses, status updates, integration testing, production troubleshooting, and cross-team issue resolution.
- Supported **Docker**-based deployments and **AWS**-hosted services.

Software Developer | Golden Legand Leasing and Finance Ltd.

Apr 2020 – Jul 2020 | Mumbai, India

- Developed payment gateway features and **OAuth 2.0** authentication functionality.
- Built backend services using Java, Spring Boot, Spring MVC, **Hibernate**, and **MySQL**; coordinated with business and QA teams.

Software Developer | Tejora Private Limited (UAE Exchange)

Jan 2020 – Apr 2020 | Mumbai, India

- Worked on application solutions for remittance, foreign exchange, and bill-payment services using Java, JSP, Servlets, Struts, and Sybase.

Software Developer | Octashop eRetail Services Pvt. Ltd. (ANMsoft Technologies)

Oct 2016 – Jan 2020 | Navi Mumbai, India

- Developed frontend and backend components using Java, JSP, Servlets, JSF MVC, Struts Tiles, and Hibernate.
- Implemented web interfaces using **JavaScript**, jQuery, AJAX, HTML, and CSS.
- Worked with SQL databases and supported testing, debugging, and code-quality practices.

TECHNICAL SKILLS

Languages: Java 8/21, SQL, JavaScript

Backend & Frameworks: Spring Boot, Spring MVC, Hibernate/JPA, REST APIs, Microservices, JSP, Servlets, Struts

Messaging & Integration: RabbitMQ, AWS SQS, **Apache Camel**, Event-driven processing

Databases: PostgreSQL, MySQL, Oracle, Sybase

Cloud & DevOps: AWS (EC2, S3, SQS, EKS), Docker, **Jenkins**, **CI/CD**

Testing & Security: JUnit, **Mockito**, TDD, OAuth 2.0, JWT

Payments Domain: Cuscal, CRB, Monoova, JPMorgan Chase APIs, payment gateways, banking integrations

Additional Tools: Claude, Cursor, Model Context Protocol (**MCP**), Prompt Engineering, Agile/Scrum

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) | University of Mumbai | 2015
